The Franklin Apartments are newly developed luxury 1 bedroom flats in an entirely renovated art nouveau period building on Rue Franklin/Franklinstraat close to the European Commission, Schuman Brussels mainline railway station, Schuman METRO station and the airport bus route stops. It is within a few minutes of the Cinquanteaire Park.

The flats were specifically designed by people then newly arrived in Brussels and who are aware of the needs of expatriates.. They were chosen to be well located within walking distance of the European institutions, international restaurants, cafes, pubs and convenience shops.

There are a number of beauty clinics, hairdressers -such as Toni and Guy - close by. There are a number of international shops, newsagents and pharmacies nearby and an Irish butcher within 5 minutes walk on the same street
